★ Shamrock Shake

image 2 of 2

Like all businesses, it seems as though Mickey D's is cutting corners in the interest of increasing profits. The Shamrock Shake has always been topped with whipped cream and a maraschino cherry. I recently ordered a Shamrock Shake for the road. The person at the counter actually asked me if I wanted whipped cream on it. I thought "Of course I do. It's part of the recipe." It's not like I was ordering a hot chocolate or a dish of Jello where whipped cream is an option. I finished the shake at home, only to discover there was no maraschino cherry to be found. Part of the enjoyment has been trying to impale the cherry at the bottom of the cup with the straw. What's this world coming to? How long before the minty green confection won't come with a domed lid, a straw and a cup? Will they be asking if we want the shake in our hand or pocket next year?

★ miss my friend (Cranston)

Miss my friend. We'd get together on occasion have a drink and share parts of our life among things. Sometimes we'd go out for a snack or have that snack inside. But he's moved.
